### NEIGHBOURHOOD PLANNING

Neighbourhood Planning gives the community direct power to develop a shared vision for their neighbourhood and shape the development and growth of their local area.

An article on Neighbourhood Planning recently in the NR29 magazine provided an update on the benefits.

We are working with Collective Community Planning and are in the very early stages of pulling together our neighbourhood plan. Our first meeting will be held in the next few weeks. Once we have completed the first meeting with Collective Community Planning, we will provide regular updates to ensure that our parishioners are kept updated every step of the process.

You will be given the opportunity to contribute to the shaping of the neighbourhood plan by survey once we get to that stage. Hemsby and Filby are currently in the consultation stage of the process.

### CONNECTING WITH THE COMMUNITY

We have set up a new team to look at ways to connect with the community. We will be looking at improving our website and social media presence as well as the best ways to ensure that parishioners are regularly updated on the work of the Parish Council.

The first meeting will be held shortly, and regular updates will be provided. We also welcome your feedback.

You can contact any of our councillors. Their details are on our website.
